

# CAR PARK 2020/1

## Multi-storey car park and central bus station Kouba, Algiers

The multi-storey car park with central bus station Kouba offers a total of 774 parking spaces on 4 parking floors. On the ground floor there is a bus station with 12 bus platforms and retail space, and a café on the roof. In an annex there are office spaces.

The façade consists of sheet metal, which ensures natural ventilation of the parking floors and generous daylight.

Between the two park lanes there is a 12 m wide atrium with a landscaped area, which also contributes to ventilation and improves the quality of the experience whilst in the bus station.
